LEGEND

CH= Conservation Halton CVC= Credit Valley Conservation MT= main trail RA= road allowance ST= side trail mes= measurement kms= kilometers L= long W=wide Ht= height

CONVENTIONS

1. All GPS data uses UTM (universal transverse meractor) of which all of the Bruce Trail is in zone 17 T
2. Trails in this document and table of contents are listed by their most Niagara (south usually) point.
3. MT is described as Niagara to Tobermory bound in reference to left and right,etc..
4. ST start at the MT or at the Niagara end of the MT if they meet the MT at 2 spots.
5. ST that run off other ST's start at the point closest to the MT section and circular ST's are described counterclockwise.

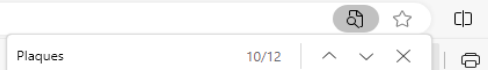

How to Search This Document in PDF

- 1) On the main ribbon above select the icon "Find ". This icon is on the top right hand side of the ribbon. OR select CTRL F on your key board.

- 2) The Find box will appear. Type what you want to find in the Find What box.

For example, Type 'Plaques'

The results display with the total number of times the word is found. Use the Up and Down arrows to view through the matches. The document also highlights in yellow all matches.

Toronto BTC Trail Geography

Ref. no.	BT 31 Map reference			Section	Distance	Geographical Reference
	Page No.	km ref	km mes	kilometer measurement	from previous measurement	
1	11/12	6.0	6.04	0.00	0.00	Start sector at junction of main trail and Dublin Line Road Allowance Dublin Road Allowance- unsanctioned trails: right to Dublin road allowance and left to Dufferin Aggregates quarry site, MT proceeds straight along top of escarpment edge. Flat, 0.5m wide dirt and rock trail, generally in mature deciduous trees but in mixed (cedar and deciduous) when close to the escarpment edge. BTC Sign - "Do Not Enter, Please Stay on Blazed Trails" to right of trail BTC Signs- 2 Diamond confirmation markers
2	12		6.42	0.38	0.38	MT turns left to follow edge of escarpment. Scenic lookout 10m to right of trail.
3	12		7.24	1.20	0.82	Boardwalk : 4.88m length; 75cm width- Not present as of July 16 2024 Construction material beside stream (possibly old support for boardwalk?) consists of two 6" x 6" x 51" posts and three 6" x 6" x 31" posts of treated lumber securely fastened together. Note July 2024: Heavy rainstorm washed the whole bridge 50 meters over edge of escarpment rendering it mostly unusable. It was noted that during or shortly after this event, the creek started to flow underground about 10-15 meters from existing trail toward the cliff face leaving a dry creek bed. The trail was rerouted along the banks and over the dry creek bed more than 20 meter distant from the cliff face at this point. No other structure was placed in its' spot. The ID number was removed for now and the spot will be monitored. In 2026, it was noted that the stream has been disappearing down a sink hole 10 meters downstream from the old bridge for many years.
4	12		7.40	1.36	0.16	12' angle iron and scrap metal sheeting 15m left of trail

4	12	2.39	2.38	0.28	0.15	ST enters mature deciduous trees. Crosses another 1 1/2" black pvc pipe.
6	12	2.46	2.46	0.36	0.08	Start gentle climb
5	12	2.51	2.50	0.40	0.04	Very old maples on right. ST starts gentle climb.
6	12	2.55	2.54	0.44	0.04	ST reaches top of small escarpment. Flat and rocky. Enters young deciduous trees.
7	12	2.60	2.59	0.49	0.05	Crevass to right of ST. No barricade. Enter mature mixedwood.
8	12	2.65	2.64	0.54	0.05	Crevass to left of ST. No barricade
9	12	2.69	2.68	0.58	0.04	Crevass to right of ST. No barricade
10	12	2.71	2.70	0.60	0.02	Unmarked track to left goes into small clearing with concrete silo. ST begins gentle descent down small (~10m) escarpment (up hill to left)
13	12	2.74	2.74	0.64	0.04	Enter deciduous successional vegetation.
14	12	2.86	2.85	0.75	0.11	ST crosses 0.3m wide stream. Seasonally muddy with flat rocks for walking for 18 metres.
						Stile crossing wire mesh fence just south of 22nd SR. 4 steps plus treadway at 1.5m height. Hand grips on both sides.
14	12	2.90	2.89	0.79	0.04	BTC sign -diamond Confirmation for Niagara travel direction TBTC sign- 22nd SR road junction sign for Tobermory bound hikers.
15	12	2.91	2.90	0.80	0.01	ST crosses 22 Sideroad on curvy sloped portion of road. Must cross with caution- note no parking here
						After road crossing, ST turns right leading to stile. Stile crossing wire mesh fence. 4 steps plus treadway at 1.5m height. Hand grips on both sides.
						TBTC sign- 22nd SR road junction for niagara bound hikers
16	12	2.93	2.92	0.82	0.02	After stile ST continues straight with gentle descent parallel to 22 Sideroad through mature deciduous trees with successional vegetation on left.
17	12	3.00	3.01	0.89	0.09	ST turns left to go around fenced parking lot. BTC signs- CGST header for Niagara travel direction on left of ST : "Video Surveillance"
						ST continues past Stile on right which allows crossing of wire mesh fence to access to cross wire mesh fence to 22 Sideroad parking lot. 5 steps plus treadway at 1.5m height. Hand grips on both sides.
						2 BTC signs: "Download the APP" with QR code"; "No Dumping - Please Respect the Trail"
18	12	3.02	3.03	0.91	0.02	BTC parking lot (courtesy of Dufferin Agg)-15m x 15m gravel parking lot on north side of 22 Sideroad surrounded on 3 sides by wire mesh fence with space for approx. 6 cars. 4.3 m wide by 1.4m high gate on north side made of 1 1/2 inch galvanized steel tube, kept closed with two 0.9m x 0.9m x 0.6m concrete blocks.
						ST turns left, parallel to 22 SR, away from parking lot on a dirt single track.
19	12	3.04	3.04	0.93	0.02	BTC sign-CGST header for Tobermory travel direction.
20	12	3.09	3.08	0.98	0.05	Gentle descent through mature deciduous trees on the right, successional deciduous on the left. ST turns left and makes gentle climb parallel to 4th Line. Mature deciduous trees on right, Successional deciduous on left.
21	12	3.16	3.13	1.05	0.07	ST turns right and makes gentle decent toward 4th Line through mature deciduous trees. Side logs on right side of ST for next 40 metres
22	12	3.21	3.17	1.10	0.05	End of Side logs on right side of ST for 40 metres
23	12	3.23	3.23	1.13	0.06	TBTC sign - Fourth Line road junction on right for Tobermory direction
23	12	3.25	3.25	1.14	0.02	ST takes sharp left leading to Stile crossing wire mesh fence. 4 steps plus treadway at 1.4m. Hand grips on right side.
24	12	3.28	3.27	1.17	0.03	ST crosses straight over 4th Line and then turns left to follow the wide gravel shoulder on the east side of the road
25	12	3.31	3.30	1.20	0.03	T-junction with 22 Sideroad. ST turns right to follow 1 metre wide gravel shoulder on right side of 22 SR. Wetland on both sides
26	12	3.38	3.37	1.27	0.07	ST crosses stream on concrete culvert. Continues on gravel shoulder with wetland on both sides.

4837110.71 (northing) 586600.80 (easting)	3130	2002	May 30'20 Replaced 2 deckboards, added sleeper at north end, and secured with angle irons. Aug.20,2019: Replaced 1 deckboard. Oct 2024 : replace 1 deckboard by TC Jul 2025 : Lg amt of erosion noted prob occuring over many yrs in storms that raise water level by 1-2 meters for brief periods- stringer noted to start to rot and sleepers at 22nd end found no longer resting on soil. Measures taken to resupport sleeper at both ends by rebuilding soil and regrounding angle irons , boards placed to mitigate erosion around footing of bridge and handrails reinforced. Bridge Will need replacement in medium term to be 4 feet longer at both ends (l.e. 24 feet instead of 16 feet)	39	Tim Reedman, May 8, 2023	North
